

# Skin Lightener

Fade, Lighten, and Reduce Pigmentation

Hexylresorcinol | Ascorbic Acid Glucoside | Grape Stem Cells

**DESCRIPTION:** Doctor D. Schwab's Alphasomes® Lightening Complex releases the most advanced natural ingredients to targeted cells to help control age spots created by overproduction of melanosis. It brightens skin, evens out skin tone and texture on the face, hands & body, and enhances skin's radiance and clarity. Fights off environmental damage with Grape Stem Cells.

## FEATURES AND BENEFITS:

**Lighten Age Spots and Pigmentation** | Hexylresorcinol, derived from Alkyl Resorcinol, which is present in wholegrain wheat and rye-rich foods and Ascorbic Acid Glucoside, is synergistically combined in our Alphasomes® to lighten and brighten the skin. Hexylresorcinol is considered to be an inhibitor of Melanosis (used to extend the storage life of many fruits and seafood).

**Protect Against and Reverse Aging with Grape Stem Cells** | Vitis Vinifera (Grape) Fruit Cell Extract protects skin against the harmful effects of skin stress caused by UV radiation, responsible for 80% of skin aging, with epigenetic factors and metabolites. It delays the senescence, or the biological aging of essential cells, as well as fights photo aging. The cell extract has an extremely high anthocyanin content which is high in powerful antioxidants and has free radical scavenging capabilities.

**Brighten Complexion** | Magnesium Ascorbyl Phosphate helps to brighten the complexion. Ascorbic Acid Glucoside, Palmitoyl TriPeptide, Vitis Vinifera (Grape) Fruit Cell Extract, and Aloe Barbadensis Leaf Extract help to create bright, healthy looking skin. Isomalt helps to protect against oxidative damage.

**Advanced Delivery System** | Dr. Schwab Alphasomes® Lightening Complex, a patent pending micro emulsion technology with Phospholipids to jump-start the action in diminishing brown spots.

**USAGE:** After proper cleansing and/or peel, apply Skin Lightener to the entire face. Can also be applied to the neck, décolleté and hands. For faster results, use both during the day and night. In the morning, follow with Umbrella Environmental Protection Moisturizer for added sun protection. In the night time, use with C.S. Citrusome. Results will vary based on your particular skin condition. The initial improvement is often seen in just two weeks. Full results generally appear after 1 to 3 months of regular use.

**INGREDIENTS:** Water (Aqua), Glycerine, Vitis Vinifera (Grape) Seed Oil, Cetearyl Isononanoate, Ethylhexyl Methoxycinnamate, Cetearyl Oliviate, Hydrogenated Olea Europaea (Olive) Oil, Sorbitan Oliviate, Olea Europaea (Olive) Fruit Oil, Phospholipids, Caprylic/Capric Triglycerides, Cetearyl Alcohol, Sodium Hyaluronate, Hexylresorcinol, Magnesium Ascorbyl Phosphate, Niacin, Palmitoyl Tripeptide, Aloe Barbadensis Extract, Vitis Vinifera (Grape) Fruit Cell Extract, Glycine, Isomalt, Proline, Dimethicone, Tocopherol, Arginine, Alanine, Ammonium Lactate, Xanthan Gum, Bisabolol, Phenoxyethanol, Potassium Sorbate, Citrus Grandis (Grapefruit) Oil, Ethylhexylglycerin

**SIZE:** 30 ml / 1 fl.oz, Ref. # 853
