## Night Time Regenerating Vitamin C Serum

Vitamin C | Grape Stem Cells | Peptides | Sodium Hyaluronate

**DESCRIPTION:** A powerful night-time regenerating serum with stabilized Vitamin C which stimulates skin's auto regenerative action to help reduce hyperpigmentation and increase skin's brightness for a smoother, firmer, more youthful looking complexion. Fights off environmental damage with Grape Stem Cells and powerful Peptides that are incorporated in our advanced Alphasomes® skin care delivery system.

### FEATURES AND BENEFITS:

**Brighten Skin with Vitamin C** | Features a highly stabilized form of Ascorbic Acid Glucoside, a natural Vitamin C (ascorbic acid) to help brighten skin tone. Encapsulated into our advanced Alphasomal® skin care delivery system, Vitamin C is slowly released, delivering the healthy benefits throughout the day.

**Protect Against and Reverse Aging with Grape Stem Cells** | *Vitis Vinifera* (Grape) Fruit Cell Extract protects skin against the harmful effects of skin stress caused by UV radiation, responsible for 80% of skin aging, with epigenetic factors and metabolites. It delays the senescence, or the biological aging of essential cells, as well as fights photo aging. The cell extract has an extremely high anthocyanin content which is high in powerful antioxidants and has free radical scavenging capabilities.

**Palmitoyl Pentapeptide-3** | An advanced peptide made in-house. Supports cell metabolism and stimulates cell proliferation and tissue regeneration for bright, healthy looking skin. In vitro clinical studies showed it stimulated wrinkle fighting collagen by 117% and firming collagen by 357%, increased moisture holding capacity by 267%, reduced the surface area of wrinkles by 68% and reduced skin roughness by 16%.

**Slow The Signs of Aging** | Sodium Hyaluronate and Sodium Citrate, blended with *Triticum Vulgare* (Wheat) Amino Acids, along with a hydrating complex act as cellular activators. Linoleic Acid and Octanoic Acid establish 'anti-photo aging' and help to increase skin's brightness. *Saccharomyces Cerevisiae* Extract, Retinyl Palmitate, Tocopherol Acetate, Citric Acid help to decrease inflammation of the skin and help to prevent skin damage caused by free radicals.

**Advanced Delivery System** | Alphasomal® Complex is an advanced Phospholipid based delivery system that encapsulates active ingredients and enables them to reach the targeted area for superior product performance.

**USAGE:** Apply a few drops to skin nightly after cleansing and toning. Follow with your night time moisturizer.

**INGREDIENTS:** Water (Aqua), Phospholipids, Glycerine, Ascorbic Acid Glucoside, Niacin, Sodium Citrate, Sodium Hyaluronate, L-Alanine, Carboxymethylglucan, Glycine, Glycogen, L-Proline, *Vitis Vinifera* Fruit Cell Culture Extract, Octanoic Acid, Xanthan Gum, Oligopeptide, Palmitoyl Pentapeptide-3, Panthenol, *Saccharomyces Cerevisiae* Extract, Ascorbyl Palmitate, Tocopherol, Citric Acid, Phenoxyethanol, Potassium Sorbate, Ethylhexylglycerin

**SIZES:** 15 ml / 0.5 fl. oz, Ref. # 844
