

## DESCRIPTION

Eye Mousse's specialty is velvety, soothing moisture packed with wrinkle-fighting peptides, antioxidants and brightening effects to revive and enliven stressed, delicate eye skin. Eye Mousse also rehabilitates sensitive, fragile and lifeless skin around the eye area with , two revolutionary ingredients: a "Chronopeptide", which revives sleep-deprived skin, and Carnosine (L) Benfotiamine, a patented anti-glycation complex.

## BENEFITS

- Smooths fine lines and wrinkles
- Plumps and hydrates skin
- Improves skin elasticity, texture, and appearance

## PRESENTATION

**Retail:** ½ oz (15 gm) Airless Bottle

## SKIN TYPE

All Skin Types

## pH

5.05

## USAGE

Gently pat a small amount of Eye Mousse onto skin around the eyes.

## CAUTION

Do not use if the skin is broken/cracked. For external use only. Avoid getting directly into eyes. Keep out of reach of children. Due to the Perfluorodecalin and its oxygenating repair qualities, clients may feel a slight tingle. A slight tingle or sense of activity on an extremely sensitive person indicates that they are just more sensitive to the oxygenating properties. Initial redness may occur due to the oxygenating action and bringing blood flow to the surface. It will subside shortly and leave a glow to the skin. For obvious reasons, please discontinue use of any product if skin feels irritation or burning. Product contains a Retinoid - wear an SPF during the day.

## INCI INGREDIENT LIST

Aqua (Water), Glycerin\* Caprylic/Capric Triglyceride, Stearic Acid, Bellis Perennis (Daisy) Flower Extract, Glyceryl Stearate, Cetearyl Alcohol, Squalane, Polysorbate 60, Cetyl Alcohol, Glutamylamidoethyl Imidazole, Sodium Hyaluronate (L), Palmitoyl Tripeptide-38, Carnosine (L) Benfotiamine, Hydrolyzed Hibiscus Esculentus Extract, Cassia Angustifolia Seed Polysaccharide, Perfluorodecalin, Perfluoroperhydrophenanthrene, Perfluorohexane, Borago Officinalis Seed Oil\*, Olea Europaea (Olive) Fruit Oil \*, Aloe Barbadensis Leaf Juice Powder\*, Tocotrienols, Tocopherol (D-alpha), Prunus Amygdalus Dulcis (Sweet Almond) Oil, Zea Mays (Corn) Oil, Retinyl Palmitate, Potassium Sorbate, Trisodium Ethylenediamine Disuccinate, Citric Acid, Elaeis Guineensis (Palm) Oil, Dextrin, Xanthan Gum, Phenethyl Alcohol, Caprylyl Glycol, Hydroxypropyl Cyclodextrin

\*organic

## KEY INGREDIENTS

**Glutamylamidoethyl Imidazole:** specialized "Chronopeptide" that mimics the effect of sun exposure on circadian gene expression to help synchronize skin's biorhythm, which is critical to normal cellular metabolism, regeneration and recovery. Lifestyle, such as jet lag, lack of sleep or sun exposure and stress, can disrupt the circadian biorhythm and prevent skin from getting the rest it needs.

**Carnosine (L) Benfotiamine:** patented, chirally-correct endogenous free-radical scavenger and anti-glycation complex. Glycation is the process in the skin where reactions between sugars and proteins lead to intra-molecular cross-links called "Advanced Glycation End Products". This cross-linking throws off key enzymatic processes and harms their ability to protect from oxidative stress, which in turn allows for inflammation. The final impact of this process is for the collagen and elastin proteins to stiffen and lose elasticity - Carnosine (L) Benfotiamine fights this glycation process and helps protect and maintain collagen integrity for more youthful, less-inflamed skin.

**Perfluorocarbons (Perfluorodecalin, Perfluoroperhydrophenanthrene, Perfluorohexane):** molecules that dissolve and transport nitrogen, carbon dioxide and oxygen; helps support cellular respiration and increase oxygen levels; promotes healing and produces a Botox®-like effect by reducing tension and minimizing wrinkle depth.

## KEY INGREDIENTS

*(continued)*

**Sodium Hyaluronate (L):** chirally-correct form of Hyaluronic Acid; a humectant that holds up to a 1,000 times its weight in water to provide maximum hydration and to help plump thirsty skin; improves softness and elasticity.

**Matrixyl® Palmitoyl Tripeptide-38:** peptide that stimulates and strengthens collagen and improves overall skin function (including healing processes and hyaluronic production); studies show significant reduction of wrinkle quantity and depth.

**Hydrolyzed Hibiscus Esculentus Extract:** proteins of Hibiscus seed offer superior nutrition to skin, including enhancing repair, moisture and softness; also has a tensor effect on skin to help firm skin and diminish the appearance of fine lines.

**Bellis Perennis (Daisy) Flower Extract:** naturally lightens skin by modulating various pathways of melanin synthesis, including melanocyte and tyrosinase activity; antioxidant.
